EXPERIENCE

Wordpress Developer Intern
GN Web Technologies

📅 July 2021 – Dec 2021

- Developed and maintained TrillBling, a WooCommerce-based WordPress website specializing in the online sale of jewelry.
- Enhanced site navigation and user interface to ensure a smooth and intuitive shopping experience for customers.
- Product Management - Managed extensive product catalogs with detailed descriptions, high-quality images, and categorization to enhance user experience.
- Integrated Payment Methods: Implemented Razorpay as a payment gateway, enabling secure and efficient transactions for customers.
- Account and Cart Functionality: Developed and integrated account management and shopping cart features, allowing users to manage their accounts and track their orders efficiently.
- Secured the Website: Implemented SSL certificates to ensure secure data transmission and protect customer information on the website.

PROJECTS

PinSphere - Social Image Sharing Platform
html, css, tailwind.css, javascript, express.js, node.js, mongodb

- User Management: Developed secure user authentication and authorization with login/logout functionality, account creation, and profile management.
- Image Upload and Feed: Implemented features for users to upload images, update their profile picture, and view a dynamically updating feed of posts.
- Single-View Layout: Created a fixed layout focused on desktop users, optimizing the interface for a consistent and functional experience on larger screens.

Currency-Converter
html, css, javascript

- Real-Time Conversion: Implemented APIs to fetch and update real-time exchange rates for accurate currency conversions.
- Responsive Design: Ensured the site is fully responsive, providing a seamless experience across desktop, tablet, and mobile devices.
- Performance Optimization: Optimized site performance to ensure fast loading times and efficient operation.
